

SureColor V1000

Unleash your creativity with A4 UV printing

EPSON[®]

High-quality UV printing from a compact footprint

The Epson SureColor V1000 A4 UV flatbed printer is the ideal, affordable solution for businesses creating personalised gifts, corporate merchandise, eye-catching signage, and promotional products. Its compact design enables direct printing onto a vast array of hard surfaces up to 70 mm thick, including acrylic, polycarbonate, PVC, aluminum, polyester, foamboard, styrene, wood, and stone.

It's the perfect partner for a wide range of businesses, including photo retailers, small goods manufacturers, e-commerce printers, and visitor attractions such as theme parks, delivering souvenirs and merchandise to a superior standard.

White and varnish UV inks create stunning matte and gloss finishes. An effects library offers a range of design options, while spot varnish adds precise highlights and textures.

Ideal for a wide range of applications

Signage printers

Ideal for high-quality, multi-material applications, including signage and POS (up to A4).

Photo retailers

Create customised photo products such as custom acrylic photo blocks, album covers, slates and metal panels.

Small goods manufacturers

Print onto merchandise, souvenirs, sports products, outdoor gear, tech accessories, interior goods and stationery.

Visitor attractions

Perfect for theme parks, sporting events and other entertainment industries for merchandise and souvenirs.

E-commerce businesses

Produce a wide range of personalised promotional materials, suitable for print on demand.

On-demand printing in one simple step

Produce high-quality promotional goods
on a compact desktop device

Streamlined process

While traditional screen and pad printing methods for personalised promotional goods can involve multiple steps, such as screen preparation, ink application, and curing, the SureColor V1000 simplifies the process to only one step, resulting in faster production times and streamlined workflows.

Easy all front operation

The SureColor V1000 is easy to operate with intuitive software and automatic cleaning and maintenance, operated from the touchscreen.

Printing on demand

Personalised merchandise on demand – you can print easily from Wi-Fi, USB or network connections using Epson Edge Print RIP software, which comes as standard.

Print on a variety of surfaces

Print onto almost any hard surface up to 70 mm thick. Additionally, you can print on curved surfaces such as golf ball and pens. A jig is recommended for certain objects (not included).

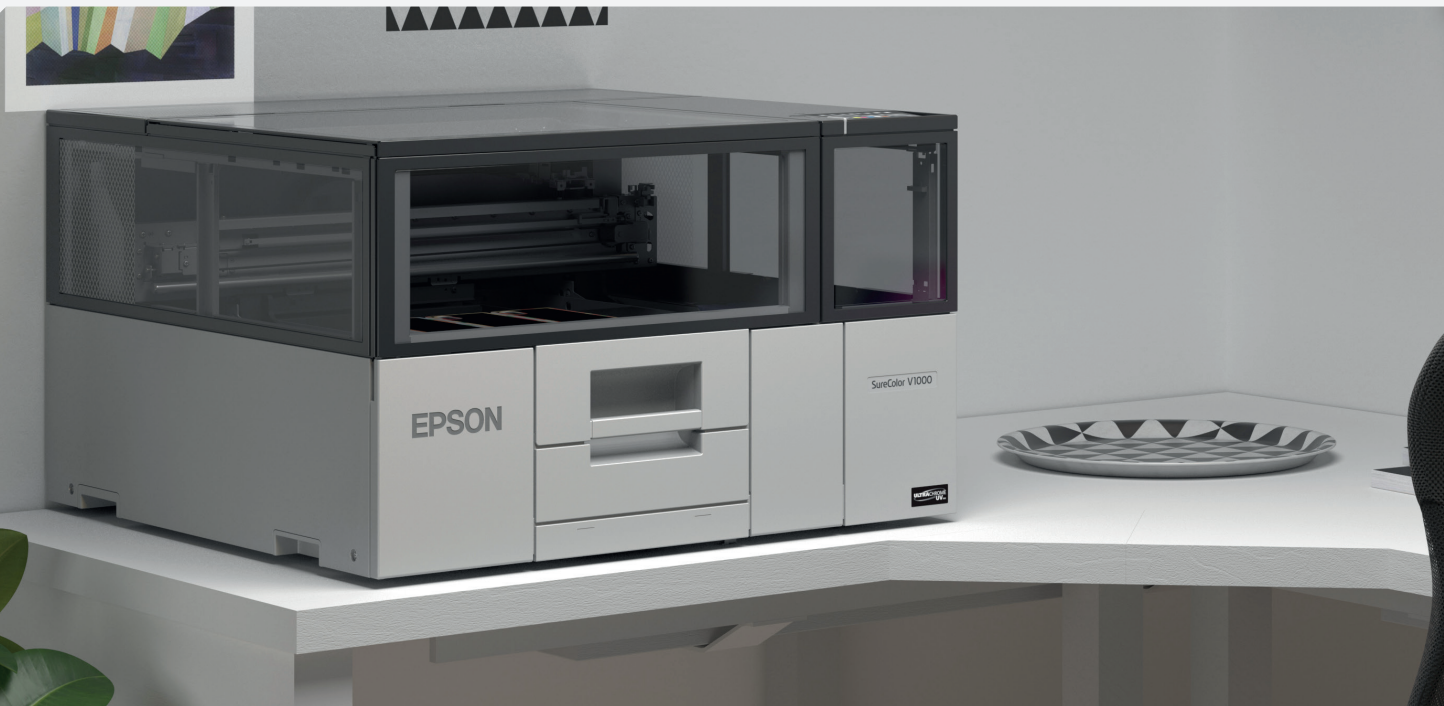

Vibrant printing and crisp edges

The CMYK Replacement Ink Pack, with white and varnish options, ensures vibrant colours and sharp details on all printed items. An integrated air filtration system and odour reducing function also come included.

Peace of mind

Epson 3-year Onsite CoverPlus warranty included.

Compact and intuitive A4 UV printer

Compact footprint (699 × 699 mm) means the printer fits easily onto most standard workbenches and desktops

Intuitive touchscreen and automatic cleaning system allow for seamless maintenance

USB, Wi-Fi and network options for constant, reliable connectivity

All operation is from the front of the printer, making it easy to use

Integrated ink pack system with 6 colours (CMYK, white, and varnish) makes ink replacement simple

Air filter included as standard to reduce odour

Technical specification

Model SC-V1000		
Outer dimensions	699 × 699 × 426	
Weight	59 kg	
Max. object dimensions to print on	210 (W) × 297 (L) × 70 (H) mm	
Max. object weight to print on	3kg	
Max. printing width / printing length	212 × 299 (mm) / 8.35 × 11.8 (inch)	
Ink	Name	UltraChrome UV Ink
	Type	Integrated Ink Pack System
	Capacity	140 ml
	Set	6 colours (CMYK + Wh + Vr)
Max. print resolution	1,440 × 1,440 dpi	
Print gap	1 to 3 (mm)	
Power Supply	AC 100 – 240 V, 50/60 Hz	
Operational Environment	Temperature	15 – 30°C
	Humidity (No condensation)	20 – 80% RH
Main unit	SC-V1000	C11CK69301A0 (220 V)
		C11CK69301B0 (240 V)
