# Printed fabric cutting solution

Over cutter camera

Residue Cleaning (optional)

Cradle Feeder (optional)

## Parameters

Model  
 Max. cutting speed  
 Max. cutting depth  
 Multi-functional cutting head  
 Tools  
 Upgrade  
 Material  
 Material hold-down means  
 Repeat precision  
 Transmission system  
 Power  
 Data format  
 Data transmission  
 Power supply  
 Effective working size  
 Machine dimensions (mm)

We reserve the rights of final explanation, no further information for any exchanging.

CB03II-2516-RQ  
 1200mm/s  
 ≤10mm ( varies based on different material )  
 Various tools can be exchanged easily for cutting, notching, positioning etc.  
 Driven rotary tool, I/V notching tool, plotting tool, optional oscillating tool  
 Optional auto roll feeder, labelling system, pattern matching system  
 Various printed fabrics  
 Vacuum  
 ±0.1mm  
 High-end motor, precision linear rails, synchronous belt  
 9.5kw  
 PLT、HPGL、NC、AAMA、DXF、XML、PDF  
 Ethernet  
 AC 380V±10%  
 OCC working size 2450mmX1590mm  
 5150mmX2620mmX1280mm
